The Community Development Department is involved in a variety of activities influencing the overall development of the City including land use planning, zoning administration, neighborhood development and grants administration. The Planning and Zoning Division undertakes comprehensive land use planning activities, administers and enforces the City's Zoning Ordinances. The Planning and Zoning Division provides staff support to the Planning Commission, Board of Zoning Appeals, the Architectural Review Board and the Community Reinvestment Area Housing Council and also coordinates the City's Neighborhood Planning program. This Department administers specific activities tied to federal grants such as the Community Development Block Grant, the Comprehensive Housing Improvement Program, and the Economic Development Administration program. It administers the social services program that funds activities conducted by local non-profit agencies. The Department's neighborhood revitalization program offers housing rehabilitation, street and sidewalk improvements, down payment assistance for housing purchases, the development of neighborhood parks and handicapped accessibility. Fair housing issues and landlord-tenant complaint services are provided through a fair housing contract service.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 41.3% or \$112,538 as compared to the 2009 budget.

The Building Division, within the Department of Community Development, administers the City's building approval and inspection program. This division performs technical plan reviews and inspections for all residential, commercial and industrial building construction based on State of Ohio approved standards.

This division is certified by the State of Ohio. This certification entails having the following personnel: a chief building official, a plans examiner and inspectors for structural, electrical, heating and air conditioning, and plumbing construction. The State certification also requires that each position must have a backup.

A Code Enforcement Officer which deals with property maintenance issues is also funded in this division.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 2.6% or \$850 as compared to the 2009 budget. This increase will help cover the rising cost of postage for the Tree City Bulletin.

This cost center is used to account for the land banking program in the West River Neighborhood, as well as revenues and costs associated with the Demmer Hardware building. This program was initially funded with UDAG (Urban Development Action Grant) repayment funds. Per the federal grant agreement, these repayment funds are to be used for economic development related activities. Beginning in 2000, General Fund monies were required to fund this program when remaining UDAG funds became insufficient to meet total obligations.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of \$125,000 as compared to the 2009 budget. This increase is to support UDAG activities related to the Revolving Loan Fund (RLF) as presented to Council. The \$100,000 amount budgeted in 2009 and requested again for 2010 will be spent for activities related to property expenses associated with the land banking program (taxes, insurance, line of credit, etc.).

This budget division was established to account for the planting and maintenance of street trees within the public rights-of-way in the City of Kent.

Program Comments:

The 2010 recommended operation and maintenance budget reflects a decrease of 1.54% or \$1,260 as compared to the 2009 budget.

The amount listed under shade tree in capital includes \$15,000 for the purchase of trees which includes \$5,500 to cover anticipated tree loss associated with the Emerald Ash Borer. The \$5,500 increase was included in both the 2008 and 2009 budgets.

This cost center tracks expenditures related to the urban renewal plan adopted for the downtown.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 0.55% or \$550 as compared to the 2009 budget. This increase recognizes the need to cover utility expenses on acquired properties. The amount budgeted under professional services will be used as needed to implement the urban renewal plan for the downtown, including the acquisition of blighted properties and demolition of vacant buildings.

This cost center accounts for expenditures related to leased City parking lots. Currently included in this budget division are parking lots at the following locations: the Kent City Schools (Park Avenue) and the First Christian Church.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 24.2% or \$3,150 as compared to the 2009 budget. The amount included in miscellaneous contractual services is an estimated cost for plowing snow at the leased parking lots, which depends on the severity of winter, as well as some landscape maintenance. Increased costs in this division were determined by costs in previous years.

This cost center is used to account for expenditures related to public landscaping. Items included in this division are downtown landscaping, downtown hanging baskets, right-of-way plantings and Adopt-a-Spot.

Program Comments:

The 2010 recommended operation and maintenance budget reflects no changes as compared to the 2009 budget. The budget includes funding for the landscape contract and purchase of flowers primarily for the downtown. The City received \$2,750 in Adopt-a-Spot donations in 2009 as compared to \$4,500 in 2008.

This is cost center is used to account for expenditures related to the Main Street Program coordinator.

Program Comments:

The 2010 recommended personnel lines include one full-time position to coordinate the Main Street Program.

The 2010 recommended operation and maintenance budget reflects an increase of 10.0% or \$300 as compared to the 2009 budget because of an increase in the Heritage Ohio Main Street dues. Funds to pay for the annual Heritage Ohio Main Street dues were moved to the miscellaneous contractual service line this year.

The Economic Development Division administers a number of programs aimed at supporting and encouraging the economic revitalization of the City and the promotion of Economic Development. These include the Community Reinvestment Area (tax abatement for real property improvements), the City's Enterprise Zone program (tax abatement for real and/or personal property), the City's various commercial/industrial Revolving Loan Programs, and the Kent Growth Corporation.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 1% or \$116 as compared to the 2009 budget. This increase will be used to help fund fees from professional services associated with the downtown redevelopment project.

The City of Kent received Neighborhood Stabilization Program (NSP) grant funding in 2009 as part of a collaborative grant award from the State of Ohio Department of Development (ODOD). The NSP grant provides funding for activities that assist with the stabilization of residential property values at a time when foreclosure rates are on the rise in many communities. NSP funds can be used for several different types of activities, including the demolition of blighted residential structures that have been vacant for a minimum of 90 days; the rehabilitation of abandoned and foreclosed residential units that have been vacant a minimum of 90 days; or the development of new single-family residential units to replace blighted structures that have been demolished.

Program Comments:

The Community Development Department anticipates demolishing 7 blighted and vacant residential structures in 2010 with a recommended average cost per demolition of \$10,000. The estimated cost per demolition includes the cost of asbestos testing and if asbestos is identified, the proper disposal of the asbestos materials pursuant to EPA/OSHA requirements. The recommended personnel services amount is based on the anticipated personnel costs (salary/fringe) needed to administer the NSP program activities in 2010.

This cost center is used to account for expenditures related to the Brownfield Assessment Grant the City received from the U.S. Environmental Protection Agency (EPA) in June 2006. The multi-year grant was approved in late 2006 and the funding has been used to compile an inventory of sites that are potentially contaminated with petroleum substances (brownfields). The grant funds have enabled the City to contract with a qualified environmental consultant to conduct environmental assessments at several suspected sites in order to determine the type and extent of petroleum contamination. The environmental consultant also provides the City with remediation action plans which outline the best methodology for clearing any identified petroleum contaminants in order to make the sites viable for future redevelopment.

Program Comments:

The 2010 recommended operation and maintenance budget reflects anticipated costs associated with completing required EPA quarterly reporting requirements and finalizing remediation action plans for identified petroleum contaminated sites (brownfields).
