The office of the Director of Safety is responsible for administrative review of the divisions of the Safety Department. Guidance and general policy direction are formulated consistent with the community's needs, and coordination is enhanced through joint planning with the safety divisions and other City departments. Community contact on administrative issues is an important function and relieves the City Manager from becoming personally involved in numerous day-to-day operations of both the Police and Fire Departments. The Director also represents the City on a variety of safety and planning related issues.

The Director also performs a wide variety of administrative tasks at the request of the City Manager, coordinates many of the special assignments referred to the administration by the City Council, and serves as Acting City Manager in the City Manager's absence.

Program Comments:

The 2010 recommended operation and maintenance budget reflects a decrease of 4.54% or \$1,350 as compared to the 2009 budget. This reduction is the result of a slight reduction in operation supply areas. The miscellaneous contractual service line is a variable expense that is dependent upon the need for non-emergency safety and security assistance from outside agencies. Professional service costs continue to include funding for an intern to assist in the completion of revised emergency plans for the City, which will be compatible with the newly completed Portage County Emergency Operations Plan.

This program area provides the most fundamental of law enforcement services, as well as the necessary support functions. The basic activities that this program performs are patrol, investigations and administration (including crime prevention and planning).

The major facet of this division is patrol (uniformed) operations, which performs the majority of work within the department. The patrol operation is where most inspection, prevention, calls for service and enforcement action takes place. Day-to-day maintenance and operational actions are also performed at this level, with administrative and investigative support functions guiding and enhancing the delivery of police services to the community.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 0.16% or \$600 as compared to the 2009 budget. Contractual services related to police equipment and operations continue to increase.

The 2010 recommended capital was included in the five year capital improvement plan.

This division provides for dispatching, providing and maintaining records, coordinating and relaying most of the information for police services. Dispatching requires the tracking and recording of all calls for emergency and non-emergency services, and activities of assigned police personnel. In addition, dispatch processes emergency fire and medical calls for both the City and Franklin Township. The requirements for records involves processing and filing reports of incidents or actions taken, retrieval of the data for internal or external use and the receipt and accounting for local, state and federal funds.

Program Comments:

The 2010 recommended operation and maintenance budget reflects a decrease of 3.85% or \$5,000 as compared to the 2009 budget. The decrease is attributed primarily to the transfer and reimbursement of expenses related to E9-1-1 services.

The juvenile services division operates as an investigative unit by investigating and processing follow up on cases in which a juvenile is involved as either a victim or an offender.

The juvenile bureau also serves as a counseling unit. In minor criminal cases, in-house counseling serves as an alternative to the referral of juvenile offenders to the juvenile court. Counseling is provided to juveniles with personal or family problems without carrying the stigma of police contact.

The third primary function of this division is to provide for community and Kent Public School relations and support. Examples are child safety presentations in the schools and the payment, support, training, and oversight of school crossing guards.

Program Comments:

The 2010 recommended operation and maintenance budget reflects a decrease of 1.93% or \$650 as compared to the 2009 budget. In an effort to cut spending while maintaining the quality of service delivery, this division was able to eliminate some nonessential expenses to reduce their budget.

Three primary areas of responsibility are performed in the Support Services cost center. Activities related to animal complaints, disturbances and protection are handled by the Compliance Officer for approximately forty percent of his assigned time. These activities include loose and stray animal concerns, humane treatment of animals, finding homes for abandoned animals, and follow-up efforts on barking, noise and dangerous animal issues.

The remainder of the Compliance Officer's duties relate to parking compliance and vehicle issues. Daily activities include regulation of parking in the areas in which established restrictions exist, as well as general patrol around the City for parking and vehicle violations. Junk vehicle notices and removals are also noted in this area.

The third primary area funded in this cost center is Jail Detention Officers. Detention personnel are regularly scheduled approximately 125 hours per week, during the hours that housing prisoners is most likely. Six officers are authorized for these duties and fill the hours on a rotating schedule. Some employee benefits are provided on a pro rata basis, while others are earned on an actual time accrued basis. Uniforms, training and other job related expenses are paid directly by the City on an as needed basis.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 5.94% or \$1,700 as compared to the 2009 budget, which is due to increased prisoner sustenance costs, including meals, hospital/medical treatment and Portage County jail housing costs.

State and federal law require that certain fine and forfeiture monies be accounted for in separate funds and the proceeds to be used only for specific purposes such as criminal apprehension, drug enforcement activities, DUI enforcement and education, and the purchase of equipment to enforce laws. This division details those funds and activities.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 15.9% or \$7,000 as compared to the 2009 budget. As required by law, any amounts budgeted in these funds will be spent for eligible, specific law enforcement purposes.

This fund accounts for the .30 mills of property taxes that are designated for the required police pension.

Program Comments:

A portion of the City's property taxes is designated to pay police pension. The City is required to contribute 19.5% for the pension on all uniformed police salaries that are paid by the City. The amounts budgeted for pension in the police division personnel lines have been reduced proportionally by the amount of property taxes that are designated for this purpose.

The Fire Services Division provides fire suppression and emergency medical services for the City of Kent. By contract, this division provides the same services to Franklin Township and Sugar Bush Knolls.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 12.9% or \$45,400 as compared to the 2009 budget. A majority of this increase can be attributed to the rising costs of medical supplies and maintenance of critical equipment. Additionally, service calls have increased over 17% over the last two years. The rising cost of other miscellaneous items, like fuel, also can be linked to this increase.

The Community Service Cost Center tracks expenditures related to fire prevention programs including fire safety inspections, site and technical plan reviews, fire protection systems approvals and inspections. This center also tracks expenses related to providing fire safety education programs to the community including the kindergarten through fourth grade program, the Individual Fire Setter Education Program and other programs presented to various groups in the community.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 8.1% or \$600 as compared to the 2009 budget. This increase can be attributed to the rising cost of fuel.

The Technical Rescue Cost Center is used to track all expenditures related to the Technical Rescue Teams including the Dive and Water Rescue Team and Urban Search and Rescue Team (building collapse, rope rescues, and heavy rescue). The Kent Fire Department participates in these teams with other Portage County Fire Departments to provide these specialty services.

Program Comments:

The 2010 recommended operation and maintenance budget reflects no changes as compared to the 2009 budget.

The Hazmat Division cost center is used to track expenditures related to the City's participation in Portage County's Hazardous Materials Response Team. Costs to operate this team are divided amongst all Portage County communities.

The costs in this program relate to the City's share of participation in the team which is paid annually to Portage County Emergency Management and Homeland Security. They collect the funds from each community and then administer the funds which pay for all related equipment costs including vehicles for the Team.

Program Comments:

The estimated overtime shown in the personnel lines relate to costs incurred for mandatory training and incident responses. Some costs are recovered through a billing program but may take several years to collect due to legal action if the spiller refuses to pay for the incident.

The 2010 recommended operation and maintenance budget reflects no changes as compared to the 2009 budget. The amount requested in contractual services is the City's share of funding, as discussed above, for the Portage County Hazmat Team.

The Confined Space Division cost center is used to track expenditures related to the City of Kent's Confined Space Program which is mandated by OSHA. A portion of these costs will be transferred in from other departments and divisions which participate in this program. These departments and divisions include the Water Treatment Plant, Water Reclamation Plant, Central Maintenance, Community Development, Engineering and Health Department.

Through this program the Fire Department is responsible for all equipment relating to this program for emergency incidents that may occur while an entry is being performed. The department also provides a firefighter/paramedic at the entry to ensure the safety of all City employees involved.

Program Comments:

The 2010 recommended operation and maintenance budget reflects a decrease of 2.0% or \$150 as compared to the 2009 budget. In an effort to cut spending while maintaining the quality of service delivery, this division was able to eliminate some nonessential expenses to reduce their budget.

This fund accounts for the .30 mills of property taxes that are designated for the required fire pension.

Program Comments:

A portion of the City's property taxes is designated to pay fire pension. The City is required to contribute 24.0% for the pension on all uniformed fire salaries that are paid by the City. The amounts budgeted for pension in the fire division personnel lines have been reduced proportionally by the amount of property taxes that are designated for this purpose.

The Wireless 9-1-1 cost center is used to track the expenditure of dedicated revenues related to maintaining the Wireless 9-1-1 communication system.

Program Comments:

The 2010 recommended operation and maintenance budget reflects an increase of 190% or \$47,500 as compared to the 2009 budget estimate of expenditures required for the new countywide program for service and distribution of funds. Due to statutory requirements that were implemented in 2009, Portage County adopted a new wireless 9-1-1 plan of cooperation, that included a revision in the distribution of user fees from the State. The City's portion of the funds rose to an estimate of \$107,500, up from approximately \$60,000 a year. The City of Kent distributes approximately one-third of the funds to Kent State University to aid in the dispatching of 9-1-1 calls as part of the County plan. These funds are earmarked and must be spent strictly for 9-1-1 dispatch purposes.

Funding by Source Grant funds Total	\$ - \$ =	0	\$ <u>0</u> \$ <u>0</u>	\$ 85,137 \$ 85,137	

This cost center covers programs funded through the distribution of Justice Assistance Grant funds from the U.S. Department of Justice.

Program Comments:

This division is used to fund various qualifying law enforcement activities. The funds are distributed on the basis of the occurrence of Part I crimes, and they are disbursed on the basis of disparate fund distribution between the City and Portage County.

In 2010, the Police Dept. will receive funds from 2007 and 2009 distributions through Portage County totaling \$13,673. The City has also received 2009 Recovery Act funds in the amount of \$71,464, of which \$25,492 will be disbursed to Portage County as disparate funds.

The Police Department will utilize these funds for several programs as previously reviewed by the City Council. These include K-9 acquisition and training, bike patrol, police citizen's academy, and community policing training and neighborhood policing activity. Some of these activities will extend into 2011, consistent with the department programs and JAG Grant guidelines.

The primary expenses in this cost center are personnel related.
