2008 to 2011 Citizen Action Center Summary

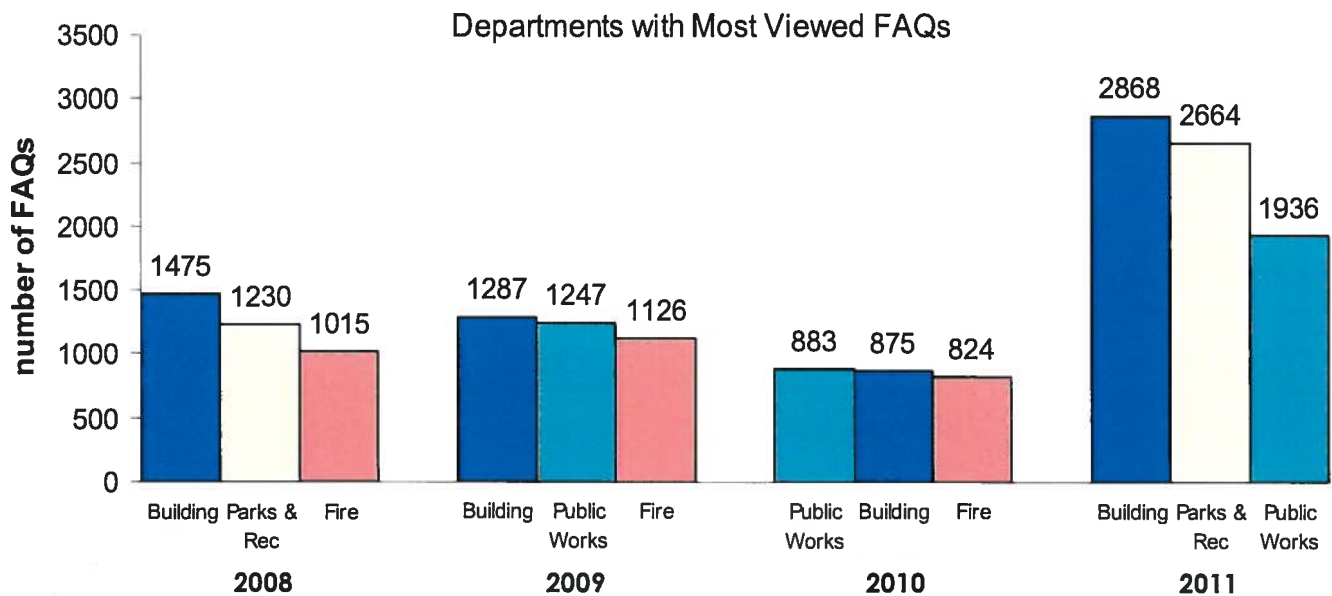

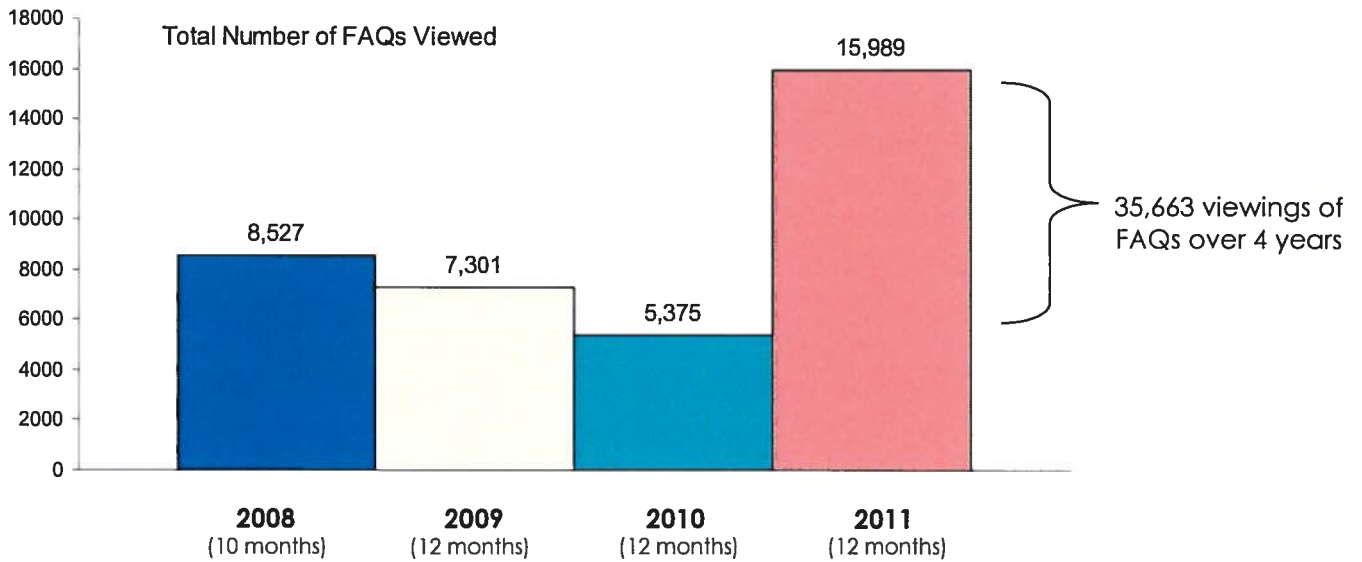

This report was prepared by staff to summarize the use of the online Citizen Action Center by Kent residents. The report includes a comparison of statistics across several years – 2008, 2009, 2010, and 2011. The Citizen Action Center went live online in March 2008 so the data for 2008 is a partial year while the data for the other three years is complete.

The Citizen Action Center allows citizens to have access to a knowledge database while also giving them the ability to communicate with City staff through the online service tools. With these tools citizens can ask staff questions, create service requests, and track the progress of their requests.

Using this data we hope to be able to continue to provide better, more convenient and effective service to citizens while saving resources.
